A. Alleles kept after 25 generations
SRK alleles in a sample of 32 plants
0
5
10
15
20
$10^1$
$10^2$
Effective population size (plants)
with self-incompatibility
neutral (no SI)
observed at the six sites
B. Effective size each site implies (25 generations)
P6 (EO67)
P42 (EO70)
P40 + P41 (EO76)
P34 (EO18)
P13 (EO27)
P16 (EO27)
$10^2$
Effective population size implied (plants)
with self-incompatibility
neutral (no SI)
