LEPA across-year prediction comparison per population (both-year populations only; n = 26)
Dot size ∝ total N_fertile. Purple = both 95 % CIs overlap (stable). Vermillion = CI mismatch (prediction shifted).
Panel A — predicted distinct srk alleles across years
Predicted distinct SRK alleles — 2026
Predicted distinct SRK alleles — 2025
P17 (LARGE)
P35 (SMALL)
stable (15)
CI mismatch (11)
Panel B — predicted pollen compatibility across years
Predicted pollen compatibility — 2026
Predicted pollen compatibility — 2025
P17 (LARGE)
P35 (SMALL)
stable (26)
CI mismatch (0)
