Stable candidate pair — 2025 vs 2026 event occupancy at the LARGE and SMALL stable populations
populationID = 6 (SMALL — stable in both years)
locations: EO67_39 | N_fert 2025/2026 = 10/12 | slickspots 4 (both-years 0)
2025 events (n = 2, N_fertile = 10)
2026 events (n = 2, N_fertile = 12)
event hull
Latitude (°)
Longitude (°)
populationID = 17 (LARGE — stable in both years)
locations: EO27-1_11, EO27RT_12 | N_fert 2025/2026 = 548/1442 | slickspots 64 (both-years 7)
2025 events (n = 14, N_fertile = 548)
2026 events (n = 66, N_fertile = 1442)
both-year slickspot (n = 7)
event hull
Latitude (°)
Longitude (°)
