2026 — mothers per population: do we have what the design asks for?
Target: 1110. In LEPA DB: 705. Short: 28 populations (600 mothers, counted per deme).

Mothers already in the LEPA DB (light bar, on top) Mothers needed — 90 % SRK coverage per deme (solid bar, below)

P16 (events = 66, demes = 29, adults = 1442, largest deme = 261) — short by 91
P13 (events = 17, demes = 12, adults = 191, largest deme = 75) — short by 35
P8 (events = 17, demes = 6, adults = 198, largest deme = 138) — short by 31
P4 (events = 6, demes = 4, adults = 152, largest deme = 62) — short by 10
P5 (events = 9, demes = 4, adults = 138, largest deme = 92) — covered
P12 (events = 9, demes = 1, adults = 173, largest deme = 173) — short by 19
P2 (events = 2, demes = 1, adults = 154, largest deme = 154) — short by 2
P11 (events = 6, demes = 3, adults = 85, largest deme = 73) — short by 15
P9 (events = 7, demes = 1, adults = 103, largest deme = 103) — short by 13
P17 (events = 4, demes = 3, adults = 42, largest deme = 25) — short by 10
P14 (events = 7, demes = 5, adults = 44, largest deme = 21) — short by 10
P15 (events = 2, demes = 2, adults = 53, largest deme = 43) — short by 9
P10 (events = 2, demes = 1, adults = 44, largest deme = 44) — covered
P3 (events = 2, demes = 1, adults = 27, largest deme = 27) — covered
P1 (events = 1, demes = 1, adults = 27, largest deme = 27) — covered
P6 (events = 2, demes = 1, adults = 12, largest deme = 12) — covered

BL1

P19 (events = 82, demes = 26, adults = 720, largest deme = 192) — short by 21
P18 (events = 27, demes = 4, adults = 1502, largest deme = 1399) — short by 38
P21 (events = 24, demes = 11, adults = 152, largest deme = 68) — short by 33
P23 (events = 11, demes = 5, adults = 251, largest deme = 216) — short by 31
P25 (events = 8, demes = 2, adults = 523, largest deme = 503) — short by 29
P26 (events = 1, demes = 1, adults = 167, largest deme = 167) — short by 19
P22 (events = 4, demes = 1, adults = 19, largest deme = 19) — short by 4

BL2

P34 (events = 76, demes = 21, adults = 1150, largest deme = 325) — short by 13
P28 (events = 24, demes = 11, adults = 861, largest deme = 541) — short by 77
P29 (events = 12, demes = 7, adults = 425, largest deme = 309) — short by 45
P35 (events = 20, demes = 4, adults = 887, largest deme = 822) — short by 7
P32 (events = 2, demes = 1, adults = 27, largest deme = 27) — covered
P36 (events = 3, demes = 2, adults = 16, largest deme = 12) — covered
P33 (events = 1, demes = 1, adults = 2, largest deme = 2) — short by 1
